## Experiences

---

### Front-End Developer 08/2023 - 12/2023

Fave, Seoul, South Korea

- Created an interactive 3D project with Three.js, enhancing user engagement.
- Optimized animations for smooth and efficient performance.

### Full Stack Developer - Intern 02/2022 - 05/2023

Naver, Seoul, South Korea

- Built modern and responsive front-end interfaces using React.
- Enhanced state management efficiency by normalizing data with Redux.
- Built and maintained CI/CD pipelines using GitHub Actions.

### Front-End Developer 02/2022 - 05/2023

Whatis, Seoul, South Korea

- In-depth understanding of React lifecycle, successfully optimizing its performance.
- Communicated proactively with designers and back-end developers.

## Technical Skills

---

**Languages:** JavaScript, TypeScript, C#, SQL (PostgreSQL, MySQL), GraphQL.

**Frameworks:** ReactJS, NextJS, NodeJS, ExpressJS, NestJS, ThreeJS.

**Tools:** Docker, AWS (S3, EC2, App Runner, Lambda), Github Pipelines, Github Actions, Git, Vercel, Cloudflare.

**Libraries:** Redux, Zustand, Recoil, Axios, React Query, Prisma, Jest, Zod, etc.

**Css:** Styled Components, Tailwind CSS, SCSS.

## Projects

---

### DevLog 12/2023 - Present

- Built a modern and responsive blog with Next.js.
- Utilized Prisma with PostgreSQL for database management.

### My Room 11/2023

- Created an interactive 3D room with Three.js, demonstrating strong understanding of OOP.
- Integrated React with Three.js to develop a dynamic user experience.

## Education

---

### Douglas College 2024 - Present

Computer Studies, Information Systems (Diploma)

Vancouver, BC

### Kyung Hee University 2017 - 2022

Computer Science (Bachelor)

Seoul, South Korea
